Monarchs in the Library
Munching away on milkweed leaves are several caterpillars with black, yellow and white stripes.

They’re in the Library so that all our students can see them; particularly our JP students who, this term, are working in the Biological Sciences strand of the Science curriculum which examines Living Things.

We also have eggs and chrylases, so luckily the students get to see all the stages of the life cycle of the Monarch butterfly. The metamorphosis takes around a month.

Please come into the library and have a look if you would like. Thanks to Deb for finding the caterpillars and bringing them in for us to study.

In Week 7 we will have chickens hatching in the library.

Connor and Alexandra (Room 12)

Safe Play after school
We would like to remind parents that there is no after school supervision in play areas after school. It is up to parents to supervise their children’s play after the bell.

The nature play area near Room 15 and 16 is out of bounds after school as we have had incidences of rock throwing and rough play in this area.

AFWL Crows Visit by Dayna Cox
We were very lucky to have Dayna Cox from the Women’s Crows Team come to talk to some of our classes last Wednesday.

Dayna is number 31 and plays in the back line for the team. She described her love of football from an early age and while playing for the Morphettville Park team was privileged to be selected in the first Crows team for women.

Dayna outlined her schedule of a typical day which included going to work and training for 3 to 4 hours each evening. She has to stick to a healthy diet with no chocolate, lollies or junk food. The most important thing is she has to drink lots of water each day.

Dayna was really happy to sign our Crows paraphernalia and pose for photos with us. She was very inspiring. Thanks Dayna!
Swimming Assessment by Sophie (Room 9)
The things I learnt were:
* doing a proper dive
* How to sit on your board while going up a wave
* Running into the water
The things I enjoyed were:
* Swimming in the rough waves
* Playing flags
* Body boarding
I rate the two days 9/10.

Swimming by Hayden (Room 9)
On Wednesday and Thursday we had swimming at Port Noarlunga. We were divided into groups. I had nine people in my group.
Our instructor was Camo. The things I learnt were how to do a barrel, how to save someone’s life and how to save someone when they’re knocked out.
The things that I didn't enjoy were getting dunked by waves and getting bitten by a crab.
I rate the two days ten out of ten.
Swimming at Port Noarlunga by Gloria (Room 9)
The things I learnt at swimming were;
• How to do a proper rescue
• How to steer on my body board
• How to do a proper dolphin dive
The things I enjoyed were;
• Body Boarding because there were huge waves
• Doing the body part game because we got to roll in the sand after
The things I didn't enjoy were;
• When I forgot my lunch on the first day.
Something weird happened when I got dunked and a piece of seaweed ended up on my head!
I rate the two day 8/10 because it was so much fun but there were a few downers like the weather on the first day.

On Wednesday and Thursday of Week 4 the year 6 and 7s went to Port Noarlunga for Aquatics.
The two activities I chose were kayaking and stand up paddle boarding. My favourite was stand up paddle boarding because when you fell off it felt refreshing.

Riley C, Room 18

My favourite activity at Aquatics was surfing. It was fun to learn new skills and how to stand up on a surfboard.
The worst part of Aquatics was how windy it got on the beach. It hurt when the sand would blow against us.

Jemma, Room 18

I like body boarding because when you caught the waves sometimes they would go over you. It was great to be in the same group as my friends. I didn’t like that some of the activities we chose were cancelled due to the weather. Overall it was a fun 2 days.

Rylee, Room 18
End of Day for Students
-Bell goes at 3:05pm
-Go to your meeting spot
(A spot where an adult waits for you)
-Your parents or carer are not there?
-Is there someone else there that you know that can wait with you?
-If not...come to the office and we will call your parents.

End of Day for Parents / Carers
-Bell goes at 3:05pm
-Running late? Phone a friend and see if they can go to your meeting spot to re-assure your children that you are on your way.
-Talk to your children and let them know that the office is the place to go if no-one is waiting for them.
-That way we can pass on messages or give you a call.

Congratulations
Ten students from Moana Primary school took part in the SAPSASA swim trials on Tuesday at the Marion outdoor pool.

They swam a variety of strokes and represented our school well. Some very good times were recorded on the day. Our fastest students will participate in the State Trials at the Adelaide Aquatic Centre later this year.

Thanks to the parents who transported us to the pool and helped on the day and Mr Remfry for organising our team.

Premier's Reading Challenge 2017
The PRC is designed to encourage to read at home and become life-long readers.

The children need to read and record 12 books. Eight of the titles must be from the school or the local library.

Children must record their reading on a Student Reading Record sheet obtained from their class teacher. They are expected to keep this as a running file and record titles and authors of each book they finish.

It is a requirement that an adult from home sign off of the child’s reading.

The next four titles can be any book the child wants to read.

The challenge finishes on September 8.

Completed recording sheets must be returned to the class teacher by or before that date.

Parent Reading Workshops
Thank you to all of the parents and carers who were able to make it to our Parent Reading Workshops for Reception students.

The session was about techniques that we use here at school to teach children to read.

You only need ten minutes reading time a day to connect with your child, relax and have fun. Reading is not a test and should not be a stressful time. The take home books are meant to be easy for your child to read. They are tools for increasing confidence and fluency.

Jenny Jupe, Alice McHenry, Gail Richter, Jac Hocking and Coni Tan
**Morning and Afternoon Routines**
Do your children find morning or afternoon tasks difficult? Sometimes visuals are helpful as they are explicit instructions and are easy to follow. These charts are great to pop on the fridge and tick off for reward incentives.

<table>
<thead>
<tr>
<th>In the morning I need to:</th>
</tr>
</thead>
<tbody>
<tr>
<td>7:30 am Wake up</td>
</tr>
<tr>
<td>Eat my breakfast</td>

**Pokemon cards / Card Club**
Pokemon cards have been a favourite for students for some years now. **We do not** allow trading of cards here at Moana Primary.
Mr Steele will be holding Card Club where any interested children can bring their cards to show (no swap or trade).
It will be held in the Focus Room.
Reception to Year 3 on Monday lunch times and Year 4-7 on Wednesday at lunch time. Hope to see lots of you there!
**Please do not bring your cards on other days.**

---

**Shoes**
We have a pair of Grosby school shoes, UK size 1 to give away. Please call into the Front Office if these would fit your child and you need some school shoes.

---

**Parking around the School**
The Onkaparinga Council have been targeting incorrect parking around the school. Ensure that you are not in a no standing zone or parked on the footpath, verge or grassed area adjacent to the Community Centre.
Any of these infringements could result in a fine.

---

**Lost property**
We have already washed up multiple jumpers with no names on them and put them into top swaps. (The jumpers you get to wear when you don’t have a school jumper).
We also have a wetsuit that didn't make it home after swimming/aquatics ...are you missing one?

---

**Jolly Phonics in Room 1 Reception**
We have been making crafts to help us remember our letters. It has been lots of fun and our class looks great.

**Ants on my arm  a a a**
Assembly
It was great to see so many parents and care givers at our Assembly yesterday. We enjoyed watching the year 2’s from room 15 dance and sing to ‘Give me a home amongst the gum trees’.

Our class representatives for SRC were presented and given a certificate. Room 7 showcased a dance and our year 6&7 students from room 18 showed everyone the internal components of a computer. They have been looking at this during their digital technology lessons.

Our next Assembly is on March 15. Room 13 hosting and rooms 17 and 16 will be showcasing.
